Sage CRM

Customers, as you know, are the linchpin of your business. CRM (Customer Relationship Management) is the core process that; whether or not you manage it with software; drives all your business function areas.

Sage CRM helps you to logically document, automate, manage and streamline your business processes for maximum efficiency and ROI and improved customer loyalty.

“Sage CRM was at the very heart of our ethos and was the key driver to help us not only service our customers better but also make our staff work more efficiently and productively. Once Sage CRM was implemented and integrated with the existing Sage 200 application, this ethos became an integral part of our business processes and dealing with existing and prospect customers.”

David Walsh
Finance Director, Sign + Digital, Ireland

- How are my staff spending their time?
- Are all leads and opportunities being captured and followed up correctly?
- Are we targeting the most profitable customers?
- Are my customers satisfied with the level of service?
- How is each department performing?
- How can I empower my staff to become more productive?
- How can I ensure that budgets are being tracked and managed effectively?

These are just some of the questions senior managers and SMB owners face on a daily basis. Rest assured, there is a solution to those many challenges – Sage CRM.

Sage CRM offers a broad range of functionality with a low total cost of ownership to small and mid-sized organisations globally. Sage CRM equips sales, marketing and customer service teams with the tools they need to boost productivity, find new customers, close sales faster and build lasting, more profitable relationships across all channels. Regardless of how, when or where your customers, partners and prospects choose to interact with your business, Sage CRM provides a distinctive advantage by delivering a comprehensive, easy-to-use and intuitive system to successfully manage these relationships.

Additionally, Sage CRM connects your business like no other CRM application. Out-of-the-box it delivers tight integration with leading Sage ERP applications, breaking down departmental silos, connecting your front and back-office

and providing total visibility and control right across your business through the interactive dashboard.

Sage CRM's interactive dashboard revolutionises the way you manage your business. Information and feeds from within Sage CRM, external websites and integrated Sage ERP systems are all displayed in real-time on a single workspace so users have all the information they need at their fingertips. It eliminates the need to switch screens, driving productivity and ensuring the most efficient use of staff time.

Through its powerful workflow engine, Sage CRM drives organisation-wide, straight-through business process automation. Thanks to its ERP integration capabilities, Sage CRM delivers a 360 degree view of both customers and the business across the front and back-office to enable deeper customer and business performance insight.

Due to its open architecture and web services interface, Sage CRM also enables easy integration with other business applications and on-demand services, making it more relevant to your business and delivering better business management.

The Interactive Dashboard

The Sage CRM interactive dashboard revolutionises the way you manage your business and how your employees manage their day. The interactive dashboard delivers a rich and personalised user experience that boosts productivity and helps drive user adoption across the business.

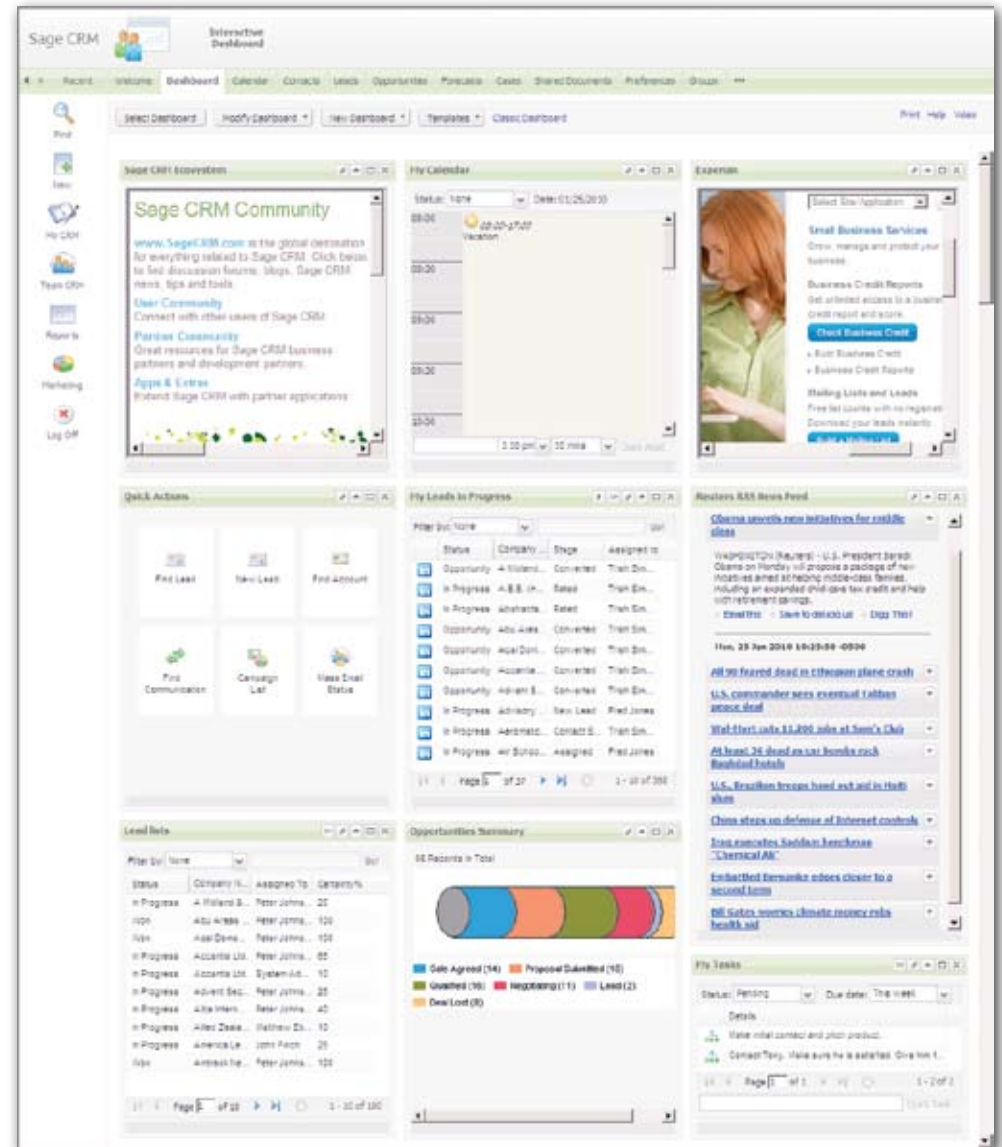

With the Sage CRM interactive dashboard, users can manage all their activity from one place. This includes their calendar, their tasks, their lists and web and RSS feeds, driving productivity throughout your organisation and enabling your staff to accomplish more from a tailored workspace that combines the information they use every day.

Users can define their own personalised and intuitive workspace from a series of gadgets and web feeds ensuring that all content is relevant to their needs, enhancing the user experience and maximising the productivity of your staff.

Using innovative drag and drop functionality, users can quickly and easily personalise the layout and information displayed on the interactive dashboard, delivering an intuitive and convenient way to view and action items and reducing the need to switch between screens. Users can manage their sales pipeline, check stock control from integrated Sage ERP systems, monitor industry news content, manage their calendar and appointments and control and process leads all from the same screen in real-time.

BENEFITS OF THE SAGE CRM INTERACTIVE DASHBOARD

- Enhances the user-experience through a range of personalised options
- Boosts staff productivity
- Empowers users to control and action activity from a single workspace
- Single view of relevant and comprehensive information enables businesses to make informed decisions
- Fully customisable layout using drag and drop technology for rich, user-driven experience
- Pre-installed role-based dashboards for Sales, Marketing, Customer Services and Management, delivering relevant content and immediate productivity gains for users and teams
- Out-of-the-box integration with LinkedIn® providing users with powerful networking opportunities direct to their dashboard
- Easy integration of web and social media sites, maximising relevant content and customer-connectedness across the organisation

- The Sage CRM Interactive Dashboard is an intuitive and customisable workspace from where users can manage all their daily tasks and activities for maximum productivity

Empower Sales Teams to Sell Effectively

Generating revenue from new and existing customers is an important task for companies. Sage CRM empowers organisations to sell more effectively and efficiently. Sales executives have a single point of access for calendars, accounts, reports, pipeline management, contacts and call lists; all of which ensure that they are producing more revenue per sales hour.

With Sage CRM, the sales team can manage and action all their activities from the interactive dashboard. This intuitive and interactive workspace enables the sales team to monitor their opportunities and pipeline, manage their calendar and tasks, and identify powerful networking opportunities from LinkedIn®, all from this customisable workspace.

Easy-to-use analytical tools help your sales team to identify latent sales opportunities which exist within your customer database, and then create cross-sell and up-sell propositions accordingly. Automated workflow and pipeline management

tools eliminate unnecessary paperwork and ensure that sales teams are optimising their sales processes and adhering to company-specific sales stages. This means that opportunities will be progressed as quickly and as efficiently as possible.

The interactive dashboard provides at-a-glance information to sales executives and managers on performance at any point in time. Integration with back-office applications provides sales staff with access to both financial and non-financial data, for a complete 360 degree view of their customers which is displayed on the dashboard for ease of reference.

Mobile and offline solutions provide sales teams with access to the information and services that they need to do their jobs effectively, regardless of their location, device or connection, thereby ensuring that they are as productive in the field as they are in the office.

“Sage CRM supports a culture of constant progress. With Sage CRM, the next step is automatically built into the process, so we’re always moving forwards together to make the most of sales opportunities and build closer customer relationships. It reinforces the rigorous discipline of how we need leads to be followed up and the business developed. It’s not just on the most visible ‘top ten’ projects that Sage CRM adds value. It helps us to check that in chasing a new lead, salespeople are investing their time where it will bring best return.”

Mark Lightowler, Managing Director,
Kaysersberg Plastics

Deliver Highly Effective Marketing Programmes to Customers and Prospects

Sage CRM provides powerful tools for marketing teams to plan, execute and audit highly targeted marketing campaigns. Sage CRM allows you to develop a deep understanding of your customers' needs, enabling you to create a tailored proposition that can be communicated to them through their preferred marketing channels.

Sage CRM provides effective controls for monitoring marketing budgets and enables you to calculate direct revenue yields per campaign.

Sage CRM improves lead quality and ensures higher conversion rates by sales. The marketing team can leverage customer insights to develop retention programmes, as well as cross-sell and up-sell lifecycle management.

Marketing analytics and reporting ensure absolute accountability at all stages in the cycle, which means that ROI can be calculated with ease and the marketing budget is optimised at

all times. This information can be displayed on the interactive dashboard for ease of reference.

The interactive dashboard is an intuitive workspace from which the marketing team can view and monitor marketing campaigns and activities. A pre-installed marketing dashboard is available out-of-the-box or users can customise their own dashboard or team dashboard with content that is relevant to them and their role.

With the interactive dashboard, the marketing team can link to reports to track the success of marketing campaigns and activities. The dashboard also display feeds from websites such as news monitoring which will keep them up-to-date with published news on their business and on their competitors. Users can also link to LinkedIn® and other social networking sites to identify networking opportunities with customers and prospects.

“We needed a system that would track all publications that went out to our customers within a given quarter. With Sage CRM, you can see which publications, newsletters and updates customers have received and all interactions following the receipt of these. There have been a considerable amount of cross-selling opportunities generated. Customers calling in response to an update are now automatically informed of other services that are available, thus ensuring we are making the most of every customer interaction”

Mark O'Connell, BDO

Ensure Customer Satisfaction and Loyalty

Keeping customers loyal and providing them with a satisfying and consistent customer experience can be hard to perfect. Sage CRM enables your company to roll-out web-based customer self-service quickly and cost effectively. From here, users can service their own information needs, track data and update the system without the requirement for customer service assistance and at the time and place of their choice.

Additionally, you can maximise the synchronisation between your service agents and your customers, ensuring that cases are progressed in a timely manner and in accordance with service level agreements (SLA) directly from

the interactive dashboard without the need to switch between screens, maximising the productivity of agents. Knowledge management capabilities make it easier to capture remedies related to specific issues which may recur over time, making sure that agents are not duplicating effort.

Reports and graphical charts which are displayed on the interactive dashboard provide detailed analysis on metrics such as call volume, case resolution times, communications, follow-up statistics and escalation so management can quantify the performance of the agents to the business.

BENEFITS OF SAGE CRM TO THE CUSTOMER SERVICE FUNCTION:

- Enables customer satisfaction measurement and benchmarking
- Increases productivity of customer support representatives
- Ensures issues never "get lost between the cracks"
- Monitors service performance against service level agreements
- Enables customer issues to be tracked and responded to, regardless of who answers the phone or received the email
- Improves response times to customer service requests
- Reduces hold times for customers requiring customer support
- Reduces the average time to resolve an issue
- Increases the number of queries resolved on first contact rate
- Leads to decreased number of service escalations
- Decreases the number of customer complaints received
- Extends customer service through 24x7 self-service options
- Enables benchmarking/score carding of customer service operations on an on-going basis
- Leads to increased customer retention
- With the interactive dashboard, the customer service team can monitor customer cases from the one workspace, boosting agent productivity and maximising the efficient use of their time

“With Sage CRM, we now have a system that automates all of the administration in dealing with our customer base. Our operators have a full service and booking history of all the callers, therefore we are building up a much deeper impression of the ‘Avis experience’ that they are having. In addition, call resolution time is down, making it a more satisfying customer experience.”

Ann Gallagher, Avis

The screenshot displays the Sage CRM interface. At the top, there is a search bar and navigation tabs including 'Cases'. Below the navigation, a message states: 'All of the Cases assigned to you are listed on this tab. The SLA status column on this list is very important when managing your workload - Red means an SLA breach, Amber is a warning, and Green is still on target. Use the New Case action button to create new cases, or select a Case to review its details.' Below this is a horizontal bar chart showing the distribution of 36 cases across different statuses: Logged (14), Queued (8), Investigating (9), Waiting (1), and Solved (4). Make Informed Business Decisions

Having a detailed knowledge of your business performance and a deep understanding of your customers is critical for senior management. Sage CRM provides extensive central control over operations and budgets, helping senior management to control these areas more effectively.

Reporting and graphical charts which are displayed for ease of reference on the interactive dashboard provide instant insight into business and employee performance across multiple criteria facilitating informed business decisions.

With Sage CRM, senior managers have the ability to validate forecast data with full drill-down to the underlying opportunities. Real-time visibility on revenue and budget variance ensures that decisions are based on accurate information, and corrective action can be taken earlier in the cycle when it has maximum impact.

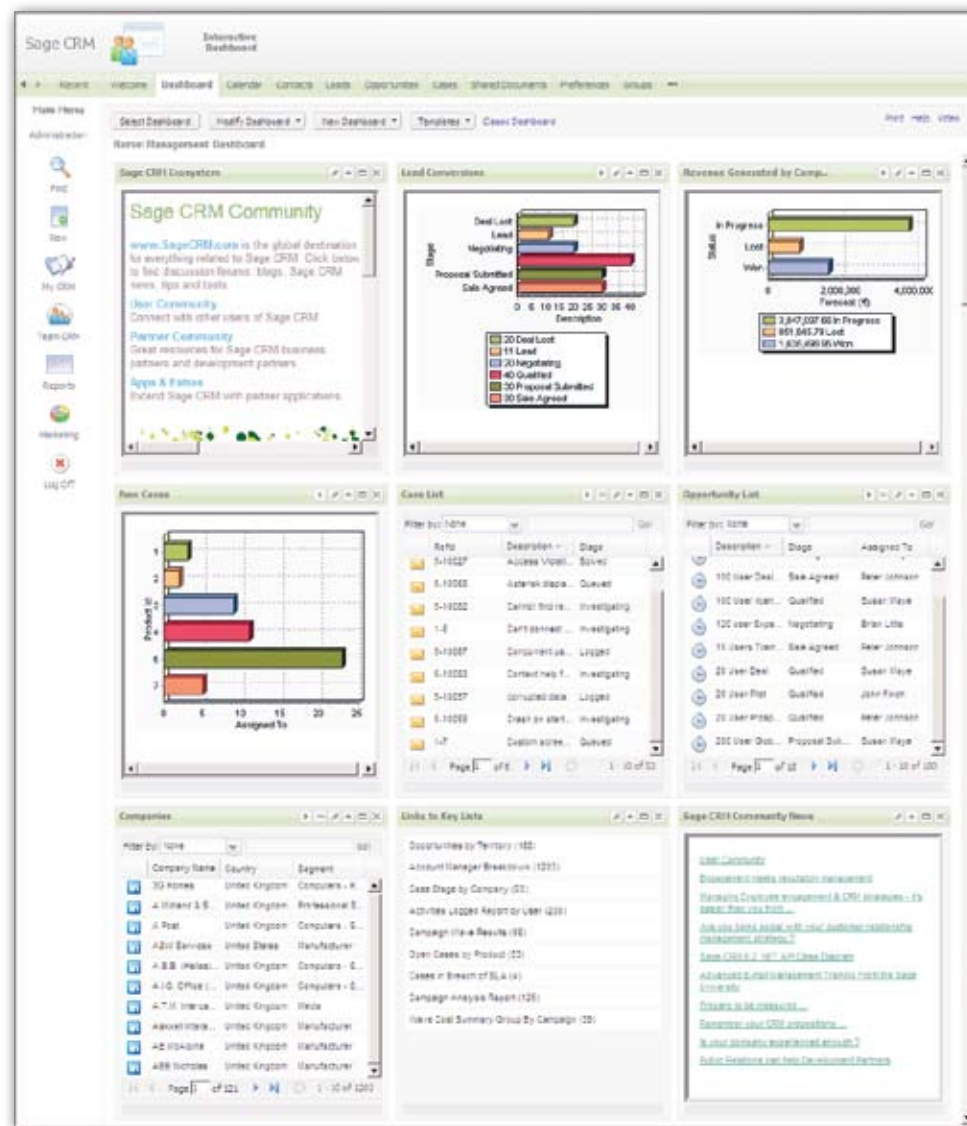

Integrated with your Sage back-office applications, Sage CRM provides a complete view of the business and streamlined end-to-end business management capabilities.

“All of Abestway’s achievements with Sage CRM have enabled the company to grow 40-50% in revenues, in the last 12-24 months, without dramatically increasing their workforce. We’re able to hire less even though we’re doing more business because of Sage CRM.”

Mendy Gorodetsky, Asbestway

BENEFITS OF SAGE CRM FOR SENIOR MANAGERS:

- Drives revenue growth
- Improves profitability
- Provides improved support for strategic decision-making
- Enables real-time corporate performance management
- Drives productivity across the entire organisation
- Improves business/shareholder value
- Reduces margin erosion
- Reduces cost-of-sale
- Reduces customer attrition
- Reduces administration cost
- Eliminates process bottlenecks
- Reduces budget and performance variance
- Delivers at-a-glance business insight via the interactive dashboard

- The Sage CRM Interactive Dashboard enables management to manage business and team performance from a single workspace

“Sage CRM’s web-based architecture greatly reduces deployment and maintenance costs as we could deploy on a single server and then simply provide access through a standard web browser for all users. In addition, most of the configuration could be done using Sage CRM’s intuitive and point and click configuration tools. We knew this would have terrific time and convenience benefits for us as the implementation progressed.”

Howard Worthington, Alliance and Leicester

Flexible, Affordable, Scalable Solution

With Sage CRM, you have the freedom to choose a solution that best fits your unique business requirements. You can choose from flexible deployment methods (on-premise or on-demand) with confidence, knowing that Sage CRM will grow with you as your business needs evolve, giving you the freedom to move from on-demand to on-premise through seamless migration options.

Sage offers an easy-to-use, fast-to-deploy on-premise CRM software solution with out-of-the box but configurable business process automation.

Users can get up and running quickly and easily thanks to the active directory import feature. Businesses can keep standard logons across their network which reduces administrative overhead and increases IT productivity.
